## EXPERIENCE

---

### ALENDEI

Development support engineer

June 2024 Present

Vadodara, India

- Design, develop and maintain RESTful APIs using modern backend technologies and programming languages such as Node.js Python, or Java.
- Collaborate with front-end developers to integrate APIs with web and mobile applications
- Stay up to date with the latest trends and technologies in backend development and API design. Perform complex troubleshooting and development assistance to the company Developer Community.

### SUVIDHA FOUNDATION

Backend Developer

Sep 2023 - Nov 2023

Vadodara, India

- Designed and developed secure user authentication and registration APIs utilizing JWT (JSON Web Tokens) for improved security and session management.
- Implemented dynamic PDF generation functionality for generating offer letters dynamically, enhancing the efficiency of the HR process.

## PROJECTS

---

### Shopping Cart

- Developed an interactive web application using **React** for dynamic content rendering and user interaction.
- **Integrated APIs** for fetching and displaying images and pricing details, ensuring real-time updates.
- Utilized **Redux** for efficient state management, improving data handling and application performance.
- Styled the application using **Tailwind CSS** to ensure a responsive and visually appealing UI.
